

## Commercial Multimedia Filtration Units

In June 2013, Pure Aqua successfully supplied a multi-media filtration units to a major company in Kuwait to reduce suspended solids and turbidity in water. The multi-media units is composed of epoxy coated steel tanks, electric actuated valves, PLC, PVC SCH 80 face piping, high quality multi-media, differential pressure switch & gauge, in/out pressure gauges, and drain line flow controls (DLFC). The plant was selected from our MF-1000 Series. Since its startup, the filtration system has been running smoothly with minimal trouble-shooting.

### System Overview

Location:	Kuwait
End-User:	A major company
Capacity:	1 x 32 GPM, 1 x 50 GPM
Water Source:	Well Water
Objective:	To remove suspended solids and sediments down to the 10 micron range
Application:	Potable & General Use
Start Up Date:	2013

Pure Aqua Inc. is an  
ISO:9001 certified  
company with over a  
decade of experience  
in advanced system  
design and  
manufacturing.

Using the latest  
technology in 3D  
Computer Aided  
Design (CAD) software  
allows for highly  
detailed and functional  
design. This reduces  
material cost and  
environmental impact,  
while maintaining  
quality and reliability.

Our modular systems  
are engineered for  
ease of integration and  
delivery to many  
locations worldwide.
