

Industrial SWRO System

In October 2008, Pure Aqua successfully manufactured and supplied an industrial SWRO system to a major company in Yemen. The SW-15K-1480 system was designed to produce 15,000 GPD at a maximum 42,000 PPM feed water TDS and is controlled by an advanced microprocessor. The system was selected from our SWI Series. From its initial start-up, the system has been running smoothly with minimal trouble-shooting.

System Overview

Location:	Yemen
End-User:	A major company
Objective:	To lower the TDS
Water Source:	Seawater beach well
Feed TDS:	42,000 PPM
Capacity:	15,000 GPD
Instruments:	Flow meters, conductivity meter, pressure gauges, ORP monitor, VFD, and a low pressure switch
Control System:	Advanced microprocessor control panel

Pure Aqua Inc. is an ISO: 9001 certified company with over a decade of experience in advanced system design and manufacturing.

Using the latest technology in 3D Computer Aided Design (CAD) software allows for highly detailed and functional design. This reduces material cost and environmental impact, while maintaining quality and reliability.

Our modular systems are engineered for ease of integration and delivery to many locations worldwide.
